

# Marine Science Camp

*Dive into MSC*

Students in grades 8 through 12 will immerse themselves into the ocean environment for the purpose of exploration, education, and the development of global responsibility.

## BUDDING MARINE SCIENTISTS WILL BE ...

- Developing research projects using high-tech research equipment under the guidance of our experienced marine science instructors.
- Observing and identifying inhabitants of a multitude of habitats with snorkel, mask, and fins.
- Performing chemical and physical sampling techniques to identify the health of our ocean.
- Navigating local marshes, estuaries, and harbors by paddling in a kayak.
- Taking field excursions to Woods Hole and other locations on Cape Cod.
